

The label has evolved with the 2018 vintage.

Ideally located in the northwest of the Saint-Julien appellation, Château Moulin Riche is composed of 20 hectares of vineyard in a single block. From these terroirs are born wines that are absolutely delectable, yet they echo the elegant, structured style of the appellation.

At one time, it was the second wine of Château Léoville Poyferré, but later regained its independence as a 'grand vin' in its own right with the 2009 vintage.

The 2018 vintage displays a new label, a "negative space" inspired creation, to highlight this wine's own identity.
